---

This is a remix of the right hinge from MagicShrimp's 270 degree hinge for the Elegoo Carbon Centauri. It is literally a mash of the hinge and the right holder from Julien Mairy's cover and bed holder.

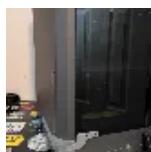

I wanted to have both, but they share the same mounting space and screw holes. I did this so I could have both! Now you can too!

## This remix is based on

### Cover and Bed Holder for Elegoo Centauri Carbon

by Julien Mairy
